## PROFILE / OVERVIEW

Highly motivated Computer Science undergraduate specializing in Artificial Intelligence and Machine Learning, with hands-on experience in machine learning, NLP, and data analytics. Strong foundation in data structures, algorithms, and software development, with proven ability to deliver end-to-end ML projects and collaborate effectively in team environments.

## SKILLS SUMMARY

**Technical:** Python, C++, C, SQL, Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Network

**Libraries:** Pandas, NumPy, Matplotlib, Scikit-learn, TensorFlow, NLTK, LangChain

**Tools:** n8n, Git, GitHub, MySQL, Oracle, Jupyter Notebook, VS Code, Kaggle, Hugging Face

**Behavioral:** Problem-solving, Team Player, Leadership, Analytical Thinking, Communication

## EDUCATION

**B.Tech – Computer Science Engineering (AI & ML)**

2022-2026

Sister Nivedita University, Techno India Group, Kolkata, CGPA: 8.98 (7th Semester) (No active backlog)

**Higher Secondary Examination (H.S.)**

2021-2022

Panchal High School, West Bengal, Percentage: 89.6%

## INTERNSHIP / EXPERIENCE

**AI Intern– Edunet Foundation (AICTE Skills4Future Program)**

- Completed internship under AICTE in Employability Skills, Digital Literacy & AI using IBM Skills Build platform.
- Worked independently on a project under mentor supervision and completed structured weekly milestones.
- Gained hands-on experience through technical sessions, self-paced learning, and masterclasses by SMEs.
- Developed and submitted final project & presentation as part of internship requirements.

**Data Analytics - Deloitte**

- Successfully completed Deloitte's Data Analytics Virtual Experience Program, working on practical tasks involving data analysis and forensic technology.
- Developed skills in data interpretation, business analysis, and insight generation while solving real-world challenges modeled on Deloitte client engagements.

## PROJECTS

**Conversational RAG-Based Recruitment AI System**

- Developed a RAG-based AI assistant for intelligent hiring assessment recommendations using FAISS, Hugging Face FastAPI, Gemini AI, and Streamlit.
- Implemented semantic search over 370+ assessments using vector embeddings and transformer models.
- Built REST APIs and deployed the application on cloud platforms.

**Kaggle Competitions**

- **AnaVerse 2.0\_H** — Secured Rank 205/1273 (Top 15%) in an anomaly prediction competition using sensor-based tabular data. Built and optimized ML classification models including Random Forest, XGBoost, CatBoost, and Neural Networks with feature engineering, cross-validation, and F1-score optimization.
- **Predicting Heart Disease** — Achieved Rank 405/4370 (Top 6%) by developing predictive healthcare ML models using ensemble learning, feature selection, and hyperparameter tuning techniques
- **Predicting Student Test Scores** — Achieved Rank 179/4317 (Top 5%) by building regression and predictive analytics models with advanced feature engineering and model optimization techniques.

## CERTIFICATIONS

- Data Science Professional Certification – Oracle
- Machine Learning Certification – Skill India
- Python Certification – Meta
- SQL Certification – University of Colorado Boulder
- Git & GitHub Certification – Google

## ACHIEVEMENTS & ADDITIONAL INFORMATION

- Solved 400+ problems on LeetCode and 275+ on GeeksforGeeks
- Active Kaggle participant with hands-on ML model building
- Language : English, Hindi, Bengali
